Green Fuel Tabs™ are tablets you add to your gas tank when you fill up your car. These have been sold by the manufacturer for over 23 years with demonstrated results. Green Fuel Tabs™ improve the combustion, giving a more complete burning of the fuel. That improves mileage and power while lowering emissions and maintenance.

You can:

- Save money
- Get better fuel mileage
- Get more power
- Reduce engine maintenance
- Save the planet

We have the solutions.

Through the Power of Innovation, **Green Fuel Tabs™** is the groundbreaking solution to transform your vehicle's performance, efficiency, and environmental footprint. Using a proprietary formula with compounds that enhance combustion, Green Fuel Tabs™ allow the fuel to burn more completely. More of your fuel is used. Your mileage and power are increased, while emissions and engine maintenance are reduced.

Experience smoother acceleration and increased horsepower and torque, enhancing your overall driving experience. You will love the difference it makes. Not only that, you will enjoy the **savings that come with better mileage** and fewer trips to the gas station.

Green Fuel Tabs™ are simple to use. Just add one or more of the small tabs to your fuel tank during fill-ups for a straightforward step towards superior driving experience.

Green Fuel Tabs™ is suitable for all types of combustion engines. This includes cars, trucks, boats, and fuel-powered equipment. We also have a liquid for larger applications. Green Fuel Tabs™ is the ideal choice for every vehicle.

A new company launched at the end of 2023 in the USA. This company, Powered by Green Fuel, was set up to market Green Fuel Tabs™. The company is using a referral marketing approach. At this time, less than 250 people have become involved. This is just the beginning. We believe this will be a high demand product so now is a great time to get involved to save fuel costs, greatly reduce emissions, get improved performance from your vehicle engine and help others do the same
